SEC Rule 606 Disclosure of Order Routing Information

Outset has prepared this report pursuant to a U.S. Securities and Exchange Commission ("SEC") rule requiring all brokerage firms to make publicly available quarterly reports on their order routing practices. The report provides information on the routing of "non-directed orders" - any order that the customer has not specifically instructed to be routed to a particular venue for execution. For these non-directed orders, Outset has selected the execution venue on behalf of its customers. The report is divided into three sections: one for securities listed on the New York Stock Exchange; one for securities listed on The NASDAQ Stock Market; and one for securities listed on the American Stock Exchange. For each section, this report identifies the venues most often selected by Outset, and sets forth the percentage of various types of orders routed to the venues.
